[REDACTED] 36643-64

3 October 1964

25X1A

MEMORANDUM FOR: [REDACTED]

25X1A

SUBJECT : [REDACTED] Status 2 October 1964

25X1A

1. The attached chart shows the [REDACTED] connections in Ser. 131, and may be of interest.

25X1A

2. The installation to be made in Group A aircraft may be decided 9 October. [REDACTED] has tentatively recommended wiring up:

- a. Cockpit pressure
- b. Seat eject.
- c. Low oxygen pressure
- d. [REDACTED] Active
- e. "A" and "B" hydraulic pressure
- f. Fuel low

25X1A

A 4-day mod time is estimated.

3. Operational and LAC groups do not now favor any connection requiring entrance into an existing cable of wires.

4. Parts and engineering appear to be well in hand.
